Teress Adams	Flint	MI	48507	United States	6/19/2014	I have been following Jessica's story since the beginning, and I am frustrated that the law enforcement hasn't been able to find her or get the suspected people involved to talk, by lie detector tests or other options. We need to put the pressure on NOW. Adopting this law would help protect women, children or whoever is in this situation. Please pass Jessica's law.

						to endure the anguish of a missing loved one!
Deborah Vasquez	MUSKEGON	MI	49445	United States	6/19/2014	I really believe that two people should be working on all shifts of gas stations and mini marts. The economy has put a lot of desperate people out there and the chances of getting robbed, killed are greater. Cameras are great, but they don't save a persons life, just give a chance of catching the robber and or killer.
Laura Puehler	Muskegon	MI	49442	United States	6/19/2014	I don't understand why it wouldn't be required to AT LEAST have cameras in a store, if not make sure that no employee is working alone, especially that time of night.
Trina Payne	Kalamazoo	MI	49009	United States	6/19/2014	I work in fast food as a closer. I do have 2 other people with me, but I feel that we need to have better security outside the building.

Ann M Fulton	Plainwell	MI	49080	United States	6/19/2014	NO ONE SHOULD WORK ALONE WHEN YOU ARE DEALING WITH WALK IN CUSTOMERS...THERE SHOULD ALWAYS BE A SECOND PERSON WHEN WORKING WITH MONEY, YOU SHOULD ALWAYS HAVE DUAL CONTROL FOR SECURITY PURPOSES.

Amanda Metzler	Holland	MI	49423	United States	6/20/2014	to keep others safe. this is a good idea for more reasons than womans safety the store I work at has been robbed twice in the last 3 years. with only ONE person on shift around 11pm. the first time it was a girl on shift and the rather large male robber had a gun to her head.
Joni Ross	Houston	TX	77058	United States	6/20/2014	I work for a 24 hr. pharmacy!

trudi francis	grand rapids	MI	49505	United States	7/5/2014	because when I was younger I worked midnights in a conv. store and speaking from experience not everyone in this world are good people.and the cost of a human life FAR outweighs the cost of a security system.if you can't do that then close your doors at night.
Armando Marra	Sterling Heights,	MI	48314	United States	7/7/2014	It is the safety of human life! No person should work without cameras or two employee on everyshift!
Bonnie Brown	Grand Haven	MI	49417	United States	7/25/2014	Let's get this done and help protect our Michigan workers! ONE MISSION!
Bonnie Hudson	Coopersville	MI	49404	United States	7/25/2014	It is appalling that gas station owners would risk the lives of their workers rather than invest in surveillance cameras to help keep them safe. These owners should make sure that there are more than just one person working a late night/early morning shift. There are too many bad things that can happen. I will be writing to the politicians in office to let them know if they

						business, a persons life is WAY more important than ang amount of money. I encourage everyone everywhere to sign this petition you could save a life.
Rosemary Schmalzried	Levering	MI	49755	United States	8/1/2014	A camera may not protect a worker from being shot or abducted, but video footage will show law enforcement WHO did it.
Amanda Standish	Battle Creek	MI	49015	United States	8/8/2014	A friend of mine was murdered at the gas station where she worked at closing time. She was alone at this time, and that's when cowards strike. This should have never happened!!!!

She was working alone at night just as Jessica Herringa was. No family should ever have to go through what either of these families are because they are going to work to support their kids!!! Don't let another life by lost due to inaction
Sheila Herrington	Grand Rapids	MI	49504	United States	8/10/2014	We Need to protect people who work the late night shift. If owners of gas stations(Exxon Moblie -Norton Shores) are not responsible enough to care for their employees, then I think we should . Praying for Jessica everyday- Help Find Jessica Heeringa !
Morgan Wyatt	Grand Rapids	MI	49505	United States	8/10/2014	Everyone should have protection!
Stacy Travis	Grayling	MI	49738	United States	8/29/2014	Everyone has the right to be safe at the place they work. Gas stations are hot spots for robberies and holdups. To not protect employees with cameras and/or placing two people on a night shift, is heartless. Jaime Perkins	Springfield	MI	49037	United States	10/27/2014	The safety of Michigan workers, especially females that are working alone are targeted more often in violent work related crimes and robbery, is more important than saving that extra money to put another person on that shift. Sophia Ussery	Macon	GA	31204	United States	9/27/2014	As an insurance adjuster, I run into this a lot. If there had only been a camera, we could ID the hit and run vehicle or the person who vandalized/stole a car. If this is would stop offenses on people or at least bring justice to those who have been done wrong, I support it.

Shelly Heeringa	Nashville	MI	49073	United States	7/26/2014	I know first hand how not having cameras, letting employees work alone, because Jessica is my daughter, I'm sure that gas station and her were a target because of having no cameras, Over a year ago this happened and LE is no closer to finding her than the first day

Larissa Tallman	Grand Ledge	MI	48837	United States	6/19/2014	Safety!
Elizabeth Halliburton	South Haven	MI	49090	United States	6/19/2014	I work at a store where I work alone and at late hours. Think about the safety issue! Would you want a family member or friend that is a female working alone at ANY TIME? Safety is the key and people like me don't have a choice in their job situation. It should be a law to protect BOTH Male and Females alike during all hours not just a criteria for late night hours and for females only. Safety in numbers people!!!!!!!
Kimberly Marciniak	Kalamazoo	MI	49001	United States	6/19/2014	So this doesn't happen again.

Wyn Eck	Vermontville	MI	49096	United States	6/19/2014	This bill is important to me as a mother, grandmother and consumer. We must take some common sense approaches to protect working Americans. If businesses won't do this then we must insist they do.
Linda Smith	Union City	MI	49094	United States	6/19/2014	For safety's sake, it only makes sense to make their workday as safe as possible.
